Sixteenth Battery Raunion.

The executive committee of the Sixteenth Ohio Battery Association met last evening at Fletcher White's law office in Black's Opera House building. It was decided unanimonsly to change the date for the appual reunion from August 13, as fixed at the last reunion. to August 6, during the Grand Army Rocampment on the Fair Grounds, where the battery reunion will be held at some point to be designated in the camp. Thomas Ackerson and Fletcher White were appointed a finance committee and the executive committee adjourned to meet again at the same place next Saturday night, to hear reports and make final arrangements for reception and hospitable entertainment of visiting comrades. The correspondent of one of the London papers, now at Suakim, writes: When Lord Woissley first assumed command, the question of liquor for his men caused much anylesy. The regulation Scotch and Irish whiskey issued by the commissary department was too heavy, and yet it was necessary to give the men a stimulant. An enthusiastic american at Cairo suggested the use of DUPW's PURS MALT WHISKEY, Headquarters Haltimore, U.S. A., resalted by all reliable grocers or druggleis. Having samples in his traveling outfit, it was found to be such a preventive of pneumonia, malaria, diphtheria, and low fevers, that an order for 2,400 cases was cables immediately.

### Everybody's Air-Brake.

"Yes, sab," said Uncle Zach, "I'se watched t forty years an' its as I sez : De fust of May an' Christmas day of de same year allers comes

Further conversation proved Uncle Zach a most incredulous person. Chancing to mention Dr. Carver's teat of breaking glass balls with a rifle, he said:
"I be rd 'bout dat shootin' and knowed right off it wasn't squar'; dat was a Yankee trick, boss, sho's you born." "What was the trick?"

"Dar wuz loadstone put into de glass balls, an' likewise onto do bullets; so when de bul-let fly outen de gun, it an' de ball jes drawed tergedder, which, in course, brokes de glass— date de tick !"

ats de trick ! Later, Uncle Zach observed a rope running long the side of the car.

"Boss, what's dat line fur?"
"To apply the air-brake in case of accident." Then we had further to explain how the force of the brake was obtained, to which Uncle Zach responded:

"Look a here boss, you sholy don't 'spect me to b'leeve dat foolishness? Why, de biggest harricane whatever blowed couldn't stop dis train, runnin' torty mile an hour. An' you think I gwine to b'leeve a little pipe full of wind under dy kyars can do it! No, sab-rea!"

There are a great many Uncle Zachs who judge everything simply by appearances.
The air-brake does not reem to be a very powerful thing, but power and efficiency are not necessarily equivalent to bigness and

Section 1. Be it ordained by the City Council, of the City of Springfield, Ohio, that it shall be unlawful for any person or persons to sell, dispose or, distribute or offer so to do any newspaper or any other article or thing of any kind whatsoever, within the limits of this city, by public outery, or by making any noise to at-tract the attention of any person or of the public during the hours of the first day of the week, commonly called Sunday, from twelve o'clock of Saturday night until two o'clock of
